St. Louis, MO

2019-2020

- Dean's Distinguished Full Scholarship
- *GPA:* 4.00/4.00 | *Honors:* Olin Dean's List (May 2020)

EXPERIENCE

Jane Street, Sales and Trading Intern, New York, NY

May 2022 – August 2022

- Analyzed and developed trade ideas and execution strategies in equity and fixed income products. Worked alongside Sales Executives and Sales-Traders to learn how to engage and cover institutional clients on their trading needs in various asset classes. Navigated high touch quote requests by working with traders to price trades and delivered client pitches in ADR, ETF, Fixed Income, and Options offerings.
- Capitalized on Form ADV and 13F filings to evaluate prospective clients and probed into existing client data via SQL to analyze trading patterns. Utilized Python, Bloomberg, and Catalog data to create a dashboard that captures large spikes in volumes or abnormal prints in ETFs. Employed tools such as Bloomberg and Morningstar in aggregating market data flows to produce market color and research reports.

Wedbush Securities, Syndicate Intern, Los Angeles, CA

June 2021 – May 2022

- Supported the Syndicate process in issuing new securities or products: IPOs, fixed income, preferred stock, closed-end funds, UITs, etc. Marketed new issue securities, executed trades, and administered the distribution of these securities to Financial Advisors, correspondent clients, and external dealers.
- Employed Excel to create Equity Capital Market reports, deal sheets, monthly reporting, firm and advisor lists, year-end fiscal project, etc. Interfaced with multiple departments within the firm including Investment Banking, Wealth Management and maintained and advanced relationships with other Investment and Bulge Bracket Banks.

First Light Capital Partners, Private Equity Analyst Intern, Brooklyn, NY

January 2021 – June 2021

- Conducted industry, middle-market business, and acquisitional research and reviewed confidential information books, financial statements, and due diligence on potential acquisitions. Engineered massive volumes of sourcing and outreach anchored towards targeted businesses.
- Applied financial modeling such as LBO models, valuation multiples, trading comps, and precedent transactions via Excel to support potential investment opportunities.

ProMazo, Data Analyst (case), Chicago, IL

December 2020

- Utilized Python to explore large datasets by conducting explanatory analysis, creating visualizations, and performing data wrangling such as merging and stacking datasets.
- Built a logistic regression model to determine relationships between college dropout rates and selected variables and conducted model diagnosis and goodness of fit test to assess model accuracy.

Team USA Table Tennis (USATT), U.S National Team Member, Colorado Springs, CO

March 2014 – July 2019

- Represented USA in competing in international tournaments such as the World Cadet Challenge, World Junior Championships, and World Championships.
- Currently an active voting member on the USATT High Performance Committee.
- Founder and president of the National Student Table Tennis Association (NSTTA).
